

BlockChainCore::ILogger

```
classDiagram
    class BlockchainCoreDisabledLogger["BlockChainCore::Disabled Logger"]
    class BlockchainCoreILogger["BlockChainCore::ILogger"]
    BlockchainCoreDisabledLogger --|> BlockchainCoreILogger
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'BlockChainCore::Disabled Logger'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'BlockChainCore::ILogger'. This indicates that 'BlockChainCore::Disabled Logger' inherits from or implements 'BlockChainCore::ILogger'.
