

mpz_int

mpq_rational

miningPoint luck

BlockChainCore::BlockConsensusInfo

```
graph BT; A[BlockChainCore::BlockConsensusInfo] -.->|miningPoint| B[mpz_int]; A -.->|luck| C[mpq_rational];
```

The diagram illustrates a data flow from a central source to two target variables. At the bottom, a grey rectangular box contains the text 'BlockChainCore::BlockConsensusInfo'. Two dashed purple arrows originate from this box. The left arrow, labeled 'miningPoint', points upwards to a white rectangular box containing 'mpz_int'. The right arrow, labeled 'luck', points upwards to a white rectangular box containing 'mpq_rational'.
